CodeLine™ 4” Membrane Housings for low pressure applications

40S Series - Side Entry

With over 400,000 vessels in service world-wide, for over three decades, CodeLine™ has been setting the standards in the industry with continuous innovation and uncompromising reliability making it the most trusted name in the water treatment industry.

The 40S Series Membrane Housing is designed for continuous, long-term use for Reverse Osmosis and Ultra-Filtration applications in typical industrial and commercial water treatment systems at pressure of 300, 450 & 600 PSI.

These Side Entry Membrane Housings are designed to accommodate any standard make of 4 inch membrane element.

Ultrapure / Sanitary Applications: 40S series comes with a specially designed 3-A style sanitary connection (optional).

* Standard Element length = 40” long

Features

- Mirror finish I.D. for easy & quick loading & unloading of membranes.
- Multi-Porting option for connecting vessels to each other.
- High operation temperature up to 120°F.
- Quick lock head retention system for quick access to membranes.
- Exteriors coated with high gloss polyurethane paint for UV resistance.
- Compact design for use in compact and low energy water treatment units.
- All components of the shell and head are constructed from material that are FDA / NSF listed.
- ASME compliant & CE marking.
- Head seal area is formed by Mandrel surface, hence more accurate.
- Head seal is captured, hence doesn’t roll during head assembling.
- Single piece head assembly cuts down number of spares (available as non-coded option for all pressure ratings).
## Specifications: 40S Series
